

2nd WCTEL Simulation Competition

Hello again INHWE Members! We are pleased to share an invitation from Hamad Medical Corporation to participate in the **2nd World Coalition Trauma & Emergency Leagues (WCTEL) Simulation Competition**, taking place in **Doha, Qatar**, from **10–12 November 2026** as part of the **Qatar Health & World Society of Emergency Surgery (WSES) Congress**. Building on the success of the first WCTEL Congress held in Campinas, Brazil, in July 2025, the Doha competition will offer an exciting international platform for medical and health professions students to develop skills in trauma and emergency care, simulation-based learning, teamwork, communication and clinical decision-making. Institutions may register one or two teams, each comprising health professions students and one supervising doctor or preceptor, with teams rotating through simulated stations over the first two days before the highest-scoring teams progress to the final round during the Congress. Team registration is free, and hotel accommodation and congress registration will be provided subject to availability on a first-come, first-served basis; places are limited to **16 teams**, and registration requires proof of flight booking or reservation. Institutions interested in participating are encouraged to review the competition rules and further details and contact [Cecilia L. Claudio](#), Trauma Surgery Section Office, Hamad General Hospital.
