## New IPE Network & Free #INHWEOnline2026 Event

Hello again INHWE Members! As I mentioned a few weeks ago, the **Southern European Interprofessional Education Network** (SE-IPEN) is a new (and free) community of practice dedicated to advancing IPE within Southern Europe. SE-IPEN focuses on building collaborative partnerships tailored to the region's unique cultural, educational, and healthcare contexts. The SE-IPEN initiative is proudly supported by INHWE and we are delighted to be offering administrative support to get this new network off the ground. You can join the network by visiting [se-ipen.org](https://se-ipen.org).

Additionally, SE-IPEN will also be participating at the **4th International Online Conference of Health Workforce Education** which will take place online from **Wednesday 7th to Friday 9th January 2026**. This free three-day event is held to promote interdisciplinary, intercontinental co-operation and critical understanding of the latest research and practice in the field of health workforce education, training and development. You can submit to the SE-IPEN theme or any other sub-theme by clicking the link below.
