# ECHOES Project Update

Hello again INHWE Members! The **ECHOES Project** participated in the AoME/INHWE 2025 Annual Conference to showcase its progress and promote the ECHOES platform—a digital hub connecting healthcare professionals, academics, and researchers across Europe. The platform, available at now [www.echoesplatform.eu](http://www.echoesplatform.eu), allows experts to share their knowledge and join international collaborations, while users can access webinars and connect with experts. Following feedback from a recent event in Cyprus, the team is refining the platform, with the first updates launched last month. The project invites continued engagement to shape the future of healthcare education and research.
