# What is INHWE?

Hello again INHWE Members! [Twitter](#) (or X as thankfully most people are still refraining from calling it) is a great tool for knowledge sharing. One thing I personally enjoy is the possibility to be reminded, through a retweet, of something posted a long time ago. It is by such means that I rewatched our "What is INHWE?" video created over 3 years ago during the very height of the Covid pandemic. It was pleasing to see this video still highlights why our free membership network is so valuable to many of you. We are always looking to increase our membership so please do encourage your colleagues and professional networks to [join INHWE](#) as we believe that together health workforce education can realise and benefit from the great potential that lies in our diverse, knowledge-rich, global society.
