The event, postponed in 2020, is the 4th iteration of our main conference which we hold once a year and is the prime meeting place for international health workforce educators, researchers and policy makers. This **two day event** is held to promote interdisciplinary co-operation and critical understanding of the latest research in the field of health workforce education, training and development. Those of you who were accepted to present at our conference will have received your discount codes this morning.

The conference is shaping up really nicely and we are delighted with the response to the call for abstracts. We'll release our **provisional programme shortly** and look forward to welcoming many of you in Catalonia!
