Save the Date: HEROES EU Policy Dialogue

Hello again INHWE Members! The **Second HEROES EU Policy Dialogue** will take place on **26 March 2026** in Brussels as a hybrid event, bringing together policymakers and stakeholders to discuss how to strengthen health workforce data and intelligence for future-ready health systems across Europe. The policy-focused dialogue is **free to attend** and will explore solutions to key challenges affecting the quality, availability, and use of health workforce data, and examine how improved planning and data integration can support sustainable and resilient healthcare systems. Discussions will also address the potential creation of a unified European Health Professionals' Registry and its links to the European Health Data Space, in the context of digital transformation, evolving workforce needs, and new models of care.
