ATBH Call for Reviewers

Hello again INHWE Members! The ATBH 2027 Programme and Scientific Committee is inviting **expressions of interest** from colleagues who would like to support the conference as **abstract reviewers**, helping to shape a high-quality and internationally representative programme. The committee is seeking a diverse pool of reviewers from different professions, disciplines, regions and perspectives across interprofessional education and collaborative practice. Applicants should have at least one peer-reviewed publication or equivalent scholarly, educational, clinical or professional experience relevant to the field. Selected reviewers will receive guidance and orientation before the review period, which is expected to run from late October 2026 to early January 2027, and will be asked to declare any potential conflicts of interest. Those interested are warmly encouraged to submit their details for consideration and contribute to the development of the ATBH 2027 scientific programme.
