

Interprofessional.Global Café on ATBH

Hello again INHWE Members! The recent **Interprofessional.Global Global Café** on [*All Together Better Health \(ATBH\) XII – Collaborative Virtues: Building Resilient Teams Through Shared Values*](#) has just been released on YouTube. The webinar brought colleagues together to explore the vision, theme, and ambitions for the next global ATBH gathering. With contributions from Prof. Elizabeth Johnson and myself and moderated by Dr. Alla El-Awaisi, the session generated valuable discussion around the importance of shared values, resilient teams, and international collaboration in advancing interprofessional education and collaborative practice. The webinar also helped build momentum towards **ATBH XII 2027 in Cyprus**, where the global community will come together to continue these conversations, share new evidence and innovation, and strengthen partnerships for the future of health and care.
