Our Advisory Board

Hello again INHWE Members! We are delighted to welcome **Vikki Park** and **Saira Hussain** as the newest members of the INHWE Advisory Board. They will be joining Elizabeth Johnson, President of the Advisory Board, along with an amazing group of colleagues whose collective expertise spans multiple regions of the world, diverse health and academic professions and a wide range of interprofessional and transversal skills. This **internationally representative and multidisciplinary Advisory Board** brings together leaders who help us with our aim to break down the barriers of professional silos, organisational hierarchy, and geographical distance, ensuring that INHWE continues to draw on broad global perspectives and rich professional experience to advance excellence and innovation in health workforce education. We look forward to welcoming Vikki and Saira to our next Board meeting in 2026.
