

## VIPE Academy Project: Join the Community

Hello again INHWE Members! We are currently working on the **VIPE Academy project**, an Erasmus+ initiative that helps healthcare educators provide high-quality virtual interprofessional education. As part of the project, we will be organising a series of virtual IPE sessions for groups of healthcare students from different professions and to help make these events accessible and convenient for everyone, we would greatly appreciate your input. We kindly **invite you to complete the short form** (linked below) on the VIPE Community sign-up page. Please note that filling in the form does not mean you are committing to take part in the events, it is only to help us identify the most suitable time periods for INHWE members to get involved. Your feedback will be very valuable in helping us plan the events in an inclusive and well-organised way.
