

Digital transformation of healthcare and its influence on health workforce

Dr. Eszter Kovacs Assistant Professor

Health Services Management Training Centre Semmelweis University

Aims of the session

 To summarize and discuss the recent challenges of digital skill development needs, and emphasize the emerging digital competences, experienced skill gaps of the health workforce in the digital age. EU level projects, initiatives, and research findings will highlight the latest improvements in digital literacy and e-skills, enhancing digital preparedness and digital capability of HWF that could significantly contribute to leveraging and strengthening the ehealth workforce

15/05/2019
